KAISER IN LONDON.

The Imperial Visitors at England's Metropolis.

WELCOMED BY THE PEOPLE.

Nothing Occurs to Mar the Pleasure of the Occasion—The Kaiser and the Prince of Wales—A Request to See Gladstone—Parnell Defeated in the Carlow Election—Other Foreign News.

LONDON, July 9.—The arrival of the kaiser and kaisers in London yesterday was witnessed by a vast throng of people. They came to Paddington station, by the Great Western, from Windsor, accompanied by their equerries and the Prince of Wales and Duke of Edinburgh. Their German majesties and the prince and duke took an open carriage, attended by postillions, and were driven without ostentation to the palace.

A number of houses along the route were decorated, and the crowd repeatedly cheered the prince and the kaiser, who politely returned the salutations. The route was specially guarded by police, but there was not the slightest indication of any disposition to insult the imperial visitor, and if anarchists were present they kept quiet. At the palace gates the multitude cheered over and over again with great enthusiasm. The guard of honor at the gates consisted of the Cold Stream guards and the Ancient Tudor corps, known as "The Beef Eaterrs."

The kaiser has expressed a desire to meet Mr. Gladstone personally, and an attempt will be made to bring them together, if Mr. Gladstone's health and engagements permit.

It is announced that at the state dinner in Windsor, the kaiser put the Prince of Wales in an embarrassing position by asking him some questions about naval matters, to which the prince was entirely unable to respond. The kaiser also tried to obtain some military information from the prince, but it is said, found the royal field marshal ignorant on all such topics. A well-known nobleman has cruelly suggested that the prince would have been at home on baccarat. The kaiser, it is thought, takes a malicious pleasure in politely sounding the depth of the prince's ignorance on prominent topics. They are, however, to all appearances very friendly.

A Prize for Scientists.

PARIS, July 9.—A French nun has bequeathed 100,000 francs to the Academy of Science to contribute a prize to be given to any one who shall discover any means of communication with "another world, planet or star." Having made her bequest known, and receiving a reply concerning it, she suggests that the planet Mars would be the most convenient heavenly body to try for. If the French Academy of Science declines to receive the custody of this bequest it is to be offered to the Academy of Arts and Sciences, at Milan, and if rejected by that faculty the offer is to be transferred to the scientists of New York.

W. H. Gladstone Laid to Rest.

LONDON, July 9.—The late W. H. Gladstone was buried at Hawarden yesterday. The illustrious father of the deceased led the procession to the family vault, surrounded by the other relatives. The coffin was followed by the tenants of the Hawarden estate, almost the entire population of the village and many friends of the family from various parts of England and Scotland. The house of commons was represented by Arnold Morley, member of parliament, and Cyril Flower, member of parliament.

Parnell's Last Hope Gone.

DUBLIN, July 9.—The result of the election held Tuesday, at Carlow, for a successor in parliament to the late O'Gorman-Mahon, has resulted in a crushing defeat for the Parnellite candidate in the district which Mr. Parnell admitted was his stronghold and where, he said, if he was defeated he would have nothing left to fall back upon in political life. The result of the election was as follows: Hammond, the McCarthyite candidate, 3,755; Kettle, Parnellite, 1,539. Majority against Mr. Kettle, 2,216.

Bloody Conflicts.

LONDON, July 9.—A series of bloody conflicts took place in January and February on the Upper Congo and Aruwimi, between troops of the Congo State and the Arab slave traders. The latter were everywhere routed, and are suing for peace.

Germany Fortifying.

BERLIN, July 9.—The kaiser has ordered that the work of fortifying Heligoland shall commence next week, under the direction of the same engineer who fortified Metz.

Four Killed and Four Injured.

LONDON, July 9.—The staging of the shaft at a colliery at Rotherham, Yorkshire, collapsed yesterday, killing four workmen and seriously injuring four others.

Cincinnati's Furniture Exposition.

CINCINNATI, July 9.—The third semi-annual exhibition of the Cincinnati furniture exposition is without doubt the largest affair ever given in this country where but one line of goods is shown. Since their first display New York, Chicago and Indianapolis have organized similar associations, but Cincinnati is the only place which the railroads recognize by cheaper rates. Every part of the Music Hall building is filled, the displays occupying 140,000 square feet. The exposition lasts one month, and over \$600,000 worth of sample goods are displayed by manufacturers from thirteen states. Nearly ten thousand people attended the opening day.

SPARED THE CHILD.

Wife Murder Followed by the Suicide of the Husband.

INDIANAPOLIS, July 9.—Edward Matheny, conductor on the electric street car line, met his wife at the Union station at 6 o'clock yesterday evening, and accompanied her to their home on Thirteenth street. Mrs. Matheny carried their babe, a bright little girl of eleven months, and the husband carried her valise. A moment after entering the house three pistol shots were heard in rapid succession and, rushing in, the neighbors discovered Matheny lying upon the floor dead from a bullet in his brain and Mrs. Matheny unconscious, a few feet away, the blood flowing from a fatal wound in the head and another in the left shoulder. The infant sat upon the floor by its mother with its hand in a pool of blood which flowed from its mother's wounds.

Not a word was heard to pass between the couple from the time they boarded the car at the station, but it was known that Matheny was insanely jealous of his wife, and his inhuman acts attributed to that cause. Matheny was 23 years of age and his wife 22, and they had been married about two years, coming here from Butlerville, Jennings county, where they grew up together. Mrs. Matheny went to her old home on Friday and returned unexpectedly to her husband who was preparing to ship her furniture to her and leave the city. By accident she met his car at the station and accompanied him home. The neighbors speak well of the wife, saying that there was no cause for the husband's jealousy, as Mrs. Matheny was always circumspect in her demeanor. On the contrary Matheny was abusive and often cruel to his wife. He had been drinking yesterday, and the murder was no doubt conceived after the unexpected return of his wife from Jennings county. Mrs. Matheny was a Miss Engle, and was well connected.

BIG FIRE IN CINCINNATI.

A Magnificent Seven-Story Building Entirely Destroyed.

CINCINNATI, July 9.—The magnificent seven-story building on the corner of Fourth and Elm streets, occupied by A. E. Burkhardt & Company, hatters and furriers, and Henry Geirhofer & Company, wholesale clothing, was destroyed by fire last night.

The fire originated in the basement of Burkhardt's store, about 9:30 p.m. Before the firemen could break through the iron grating and get a stream of water on the blaze, smoke was seen to issue through a window on the third floor. The front doors on Fourth street were broken open, and a current of air let in, and a moment later the flames shot through the elevator shaft to the top of the building.

The store being stocked with furs, hats, cloaks and other inflammable material the flames spread rapidly, and by 11 o'clock the building was gutted. The loss on building and stock is estimated at half a million dollars.

The eastern half of the building was occupied by Henry Geirhofer & Company, wholesale clothiers. The loss to this firm will probably reach two hundred thousand dollars. Insurance not having been able to obtain only 800 rifles in bad order, bought in Panama.

Most of the inhabitants of Iquique, Pisagua and Antofagasta have emigrated to southern Chile or to Peru. The French residents in Chile and the Chilean government await with trepidity the decision of the French tribunals regarding the vessels constructed there for account of the government of Chile. They have every confidence in the integrity of the French judges and in President Carnot.

SUFFERING AT SEA.

Terrible Experience of the Steamship Lake Superior.

THREE DAYS IN A HURRICANE.

Waves Lash Over the Deck Sweeping Every Loose Article Overboard—A Number of Immigrants Rendered Penniless Two People Injured.

MONTREAL, July 9.—The Beaver line ship Lake Superior, Captain Stewart, from Liverpool Friday, June 26, got into port yesterday afternoon. Her passage was one of the most eventful and unfortunate that has been experienced by any steamer coming to Montreal for some years.

The day following the Lake Superior's sailing a southwesterly gale sprang up and increased in fury as the hours wore on, until on Sunday morning about 8 o'clock it was blowing a terrible hurricane. The sea was tremendous. Waves lashed over the decks, sweeping every loose article overboard. The cargo shifted twice in the midst of the storm and the ship listed amid the cries of the frightened passengers. A cattleman named Gracie had a leg crushed to pieces, the second engineer was severely bruised and other minor casualties occurred.

A heavy sea struck the laboring ship, forcing open a port in the afterhold. Hundreds of gallons of water rushed into the hold, where was stored all the passengers' baggage. All hands were called on deck and a successful effort made to stop the rush of water. The crew went into the hold and some of them stood up to their necks in the water, and for twelve hours were bailing out before the floor became visible.

All luggage suffered. Boxes were smashed to splinters and contents ruined. Nearly all the emigrants came ashore without a stitch of clothing they could call their own. They have lost everything. The intermediate and many of the saloon passengers likewise suffered. Some of the sufferers threatened legal action. The hurricane lasted three days.

SITUATION IN CHILI.

The Insurgents Growing Desperate Without Money, Arms or Ammunition.

NEW YORK, July 9.—A cable received by Stevens & Company, of this city, from Callao, July 7, reads as follows: Passengers arriving from Valparaiso and Iquique state that the situation of the Chilean insurgents is desperate. They are without money and their vessels are in bad condition without ammunition. The army, which comprises 3,000 to 4,000 "rotos," do not receive their pay. The insurgents have been able to obtain only 800 rifles in bad order, bought in Panama.

The eastern half of the building was occupied by Henry Geirhofer & Company, wholesale clothiers. The loss to this firm will probably reach two hundred thousand dollars. Insurance not having been able to obtain only 800 rifles in bad order, bought in Panama.

MORE SCARED THAN HURT.

The Storm at Galveston, Texas, Not a Very Destructive One.

GALVESTON, July 9.—The loss on Galveston Island from Sunday night's storm did not amount to more than \$1,500. The citizens were more scared than hurt.

The fishing smack Danica, commanded by Captain Robert Frankovich, was wrecked off Smith's point, on the north side of Galveston bay, during the squall Monday morning, and five of the six men aboard of her were drowned. Those drowned are: Robert Frankovich, Frank Millovich, Pete Strangel, Jack Spech and an unknown man. News of the terrible disaster was brought to the city Monday evening by Vincent Sagovich, the sole survivor of the little craft.

The sloop Matre left last night to search for the bodies of the unfortunate men.

An Appeal to Our Government.

SAN FRANCISCO, July 9.—Nanpie, chief of Ponape, in the Caroline islands, arrived here yesterday from Honolulu on the steamship Australia. It is said he comes to appeal to President Harrison in behalf of his people who have been subjected to great brutalities by the Spanish soldiers. Strong letters, it is understood, have been sent to Washington urging the government to dispatch a man-of-war to Ponape to protect the property of Americans.

Took Another Steamer.

NEW YORK, July 9.—Prince George, of Greece, who was among the passengers who returned here Tuesday on the disabled Servia, sailed again for Europe yesterday on the Inman steamer City of New York. A number of the other Servia's passengers sailed on the Britannic, while others will remain and go by the Etruria on Saturday.

Woman Killed by Cars.

INDIANAPOLIS, July 9.—Annie Ferber, 60 years of age, was run over by a Jeffersonville, Madison and Indianapolis train yesterday, and instantly killed, her body being terribly mangled. She has been a character of the southside for half a century. When searched after the accident about \$90 was found sewed up in her clothing.

The Day at Cape May.

CAPE MAY, July 9.—The rain storm which prevailed all day kept the president and family from venturing out. The president occupied the time in attending to his correspondence and reading.

WAS IT A SUCCESS?

Some Doubts Exist About the Executions in Sing Sing Prison.

SING SING, N. Y., July 9.—The unclaimed bodies of the three electrocuted murderers—Slocum, Wood and Jugigo—were buried in the prison cemetery at 3 o'clock yesterday afternoon. Nine convicts lowered the coffins, one after another into the graves, which were then quickly filled up. There was no ceremony, religious or otherwise, at the graves.

Warden Brown was seen at the prison yesterday evening and asked as to the reported burning of Smiler's body. He said that he still adhered to his determination to make no statement whatever, and that he would neither deny nor confirm the report.

The Rev. Father Creedon, who was present at the executions in his clerical capacity, is quoted as saying that when the whole story came out it would be disclosed that all the doomed men were burned by the electrodes, but that they had been so mutilated by the surgeons knives it would be difficult of proof.

In the Interest of the Press.

NEW YORK, July 9.—Assemblyman Stein, who introduced in the last session of the legislature a bill to repeal the secrecy provision of the law for electrical executions, said yesterday that he would reintroduce the bill next session, and use all his endeavors to have it pass both house and senate. The bill passed the house last session, but did not reach a vote in the senate on account of the deadlock.

ACCIDENTAL SHOOTING.

The Same Old Story of "Didn't Know It Was Loaded."

NEW YORK, July 9.—Mrs. Jessie Judd, 44 years old, was accidentally shot and perhaps fatally wounded by her husband, J. R. Judd, a dealer in sportsmen's goods, at 1364 Broadway, yesterday afternoon. Mr. Judd was putting up a box of revolvers for a customer at the Catskills, and as he packed each revolver in a box he snapped the trigger mechanically. Mrs. Judd was standing close by her husband while he was engaged in packing the revolvers in the box.

Mr. Judd had snapped the triggers of two of them and put them in the box and taken the third one from a shelf, and as he snapped it there was a loud report and Mrs. Judd exclaimed: "I'm shot," and fell to the floor. Physicians were summoned who said that Mrs. Judd's condition was critical and her ante mortem statement was taken by a coroner. She told the coroner that the shooting was accidental and exonerated her husband from all blame. Mr. Judd was arrested and admitted to bail in the sum of \$1,000.

MARYSVILLE is probably the only city in the State that will pay a school tax of 47 cents on the \$100 this year. Undoubtedly it is a little higher than is necessary.

THE Portsmouth Blade refers to the Democratic nominee for Governor of Kentucky as "Mr. Browning." Such is fame. The Blade should write to Ben Butler and get our nominee's correct name.

THE Courier-Journal should look to its laurels. The Kentucky Journal, of Newport, is aiming very high and says it "will add feature to feature until it is the very best paper published in the State of Kentucky."

THE Portsmouth Blade remarks "they never hang white men in Kentucky." The Blade knew when it uttered the above that it was not true. There are three or four white men under sentence of death in Central Kentucky at the present time.

POSTMASTER GENERAL WANAMAKER should write another statement and give the facts about his connection with that Keystone Bank fraud in Philadelphia. His assertion that he never owned any stock in the bank has been shown to be false.

THE Paducah Standard makes the prediction that S. B. Irwin, the deposed Farmers' Alliance President, and agent for the McCormick Reaper Company, in his race for Governor, will not receive two hundred votes in McCracken County. The Standard says: "In these parts Tom Gardner is very popular, and his rulings are regarded as law. He urged members of the Alliance to work inside the old parties, and they will follow his suggestions."

That section is one of the strongholds of the Alliance in this State.

COLONEL GEORGE WASHINGTON, of Newport, has figured out that since 1880 the Legislature has been in session nearly seven hundred days, nearly one-fifth of the time, at a total cost to the tax-payers of the State of \$745,858.21. One of the best sections of the new Constitution is that which limits the sessions of the Legislature to sixty days. And the change is one that has been demanded for a long time. Just think of the State paying nearly \$1,000,000 in ten years for a law-making body that spent most of its time passing local bills.

COLONEL E. POLK JOHNSON, of the Frankfort Capital, Public Printer and Binder, is getting hot, and uses some very harsh language this week. Hear him: "The man or newspaper that says the Courier-Journal controls, directs, or in any manner has an interest in the public printing, lies, and that is all there is of it."

The Colonel is no doubt disgusted with the C.-J. for its late "flop," and wants to disclaim all connection with it. But it is not necessary for him to use such strong language. His simple word is sufficient.

The Appellate Judgeship Race.

Says the Louisville Times: "Judge J. M. Beckner, of Winchester, was in the city a few days ago, and when asked about his recently announced candidacy for Judge of Court of Appeals, he said that he had been a candidate, though not formerly announced, for some time.

He was sorry to hear that Judge Cole, of Maysville, was also reported to be a candidate; hoped that it was a mistake, as the district was sometimes very close, and it was through one of these family or Democratic fights that a Republican, Judge Holt, happened to be elected the last time. The election is more than a year off yet, and the convention necessarily near that far away, but the race is going to be an interesting one. Judge Holt, who is now the Chief Justice and who will be succeeded as such by Judge Bennett, has already announced his intention of being a candidate for re-election, and as that district embraces all of the Republican mountain counties where Judge Holt is popular, he will doubtless make a strong race again."

KENTUCKY SCHOOLS.

Increase of Public School Attendance 39 Per Cent. in the Past Ten Years.

The census bulletin recently issued on public schools shows a gain of 39 per cent. in Kentucky in the past ten years against 12 per cent. gain in population. It says: "The table for the public schools of Kentucky is from manuscript furnished by Hon. Joseph Desha Pickett, Superintendent of Public Instruction, who has been at great pains to add the sex of pupils and the county details to the statistics as heretofore usually given for the State. There are reported 7,337 school houses, of which 2,839 are log. One hundred and eighty-five churches are used as school houses, 136 being used for colored schools. Seven thousand pupils classed as private are in schools reported as public and private. The parochial schools reported are mostly Catholic."

Be Pointed.

In preparing their announcements advertisers will usually do well to confine their statements to one, or at most, a very few points. Few persons can do well more than one thing at a time, and it is much the same with the memory; but one or two points in any statement make an impression and are retained. As the number of points is increased the probability of any of them making an impression and bringing returns is proportionately reduced.

Colonel Corbett's Record a Good One.

Colonel Thomas H. Corbett, Register of Land Office, has made his last semi-annual settlement of fees collected by him for the State, with the Auditor of Public Accounts. On this semi-annual statement he paid into the Treasury \$1,819.19, which, with all that he has heretofore paid during the three years and ten months he has held the office, make a total sum of \$17,314.19. This is a much larger sum than has been turned into the Treasury from this department for years, says a special to the Courier-Journal, and is proof of the working capacity and efficiency of Colonel Corbett and his department, alike creditable to the incumbent and the Democratic party which gave him the office.

Roped Them In.

A lot more of Middlesborough's "suckers" have been roped in. A special from there says: "In April last one Robert Knight, alias B. Knight, who had served a term in the Illinois State penitentiary for forgery, came to this city apparently well off, and with bogus recommendations. He succeeded in organizing the National Loan and Investment Company, with \$1,000,000 capital and in having himself elected Secretary. With him was a dashing, pretty young woman whom he introduced as his wife. Both lived high and attended many of the ultra fashionable receptions and entertainments. Some short time ago they disappeared, and it is now discovered that he forged many checks and drafts on Cincinnati, New York and Chicago banks. He has also swindled many prominent people out of various sums of money."

Judges Lindsay and Pryor Versus Senator Carlisle.

A letter from Senator Carlisle to Chairman Johnston contains the declaration that in his opinion it would be "a mistake to adopt the new Constitution as it now stands." This is the first public expression from Mr. Carlisle on the subject. Mr. Carlisle's opinion is valuable upon any topic, especially if he has devoted much study to the matter, but it is a long ways from being infallible. When such men as Judges Lindsay and Pryor, whose minds are more entirely given up to the contemplation of law questions than is Mr. Carlisle's, endorse and advocate the new Constitution, the adverse opinion of the distinguished Senator loses much of its force. The new Constitution is an instrument upon which the most diverse opinion has been expressed by men of high ability. Every man capable of ordinary understanding must read it and decide for himself.—Louisville Post.

Another Version of Weisbrodt's Murder.

A correspondent of the Carlisle Mercury, speaking of the murder committed at Blue Licks last Sunday, says: "Weisbrodt and three or four other men came to Blue Licks Sunday morning in a wagon with two kegs of beer to have a general carousing time for the day. During the day the crowd from Mayslick had trouble with Jose Rafferty and Willis Rogers, and Weisbrodt wrenched a revolver from Rogers, and taking the loads out of it, gave it back to him later in the day. Rogers and Rafferty informed Riley Macklin and several other boys how they had been mistreated by the Mayslick boys, and that they had Rogers' pistol and would not give it up. Macklin being pointed to the one that had the revolver demanded it. Weisbrodt claimed that he had given it back, and hot words ensued between them. Macklin shot him twice and made his escape."

For the Farmer.

Threshers are charging Bourbon County farmers 11 to 12 cents a bushel for furnishing everything and putting the grain in sacks. Some are charging 5 cents a bushel, the owners furnishing the extras.

The shipments of live stock at Chicago for the last month were 67,000 cattle, 5,800 calves, 257,000 hogs, 52,000 sheep and 6,800 horses, against 86,946 cattle, 5,479 calves, 128,841 hogs, 85,401 sheep, and 8,350 horses for June, 1890.

Says the Western Tobacco Journal: "Shippers and planters generally report crop progressing finely. Of course there are some that will claim that things are not encouraging, and believe it their duty to discount the prospects, but then others, from the same neighborhood, will tell things just as they are, and the great number frankly admit that better conditions to date could not be desired."

The Secretary of the Ohio State Board of Agriculture advises farmers to hold on to their wheat. The average quality and quantity of the crop is not quite so good as was expected, he says, and the foreign demand will be active, millions of dollars having already been sent to this country for investment in wheat for shipment. Wheat will go to a dollar a bushel before the first of next year, he thinks.

After Macklin.

The officials of Robertson County are making a vigilant search for Riley Macklin, the murderer of George Weisbrodt. It was reported at Mt. Olivet last evening that Macklin had been located, and a posse of six left there to aid the Sheriff and Constable to make the arrest. The party had not returned this morning. The fugitive is thought to be hiding in the Licking hills near his home.

The Turf.

The first of the Bluegrass Circuit meetings will be held at Shelbyville.

The second payment on the entries for the stake races at Danville fair shows that forty-four are eligible.

T. W. Titus, a well known racehorse man, died at the fair grounds at Paris Tuesday morning of cramps.

The Baronet at the Postoffice.

Some time ago Sir Reginald Barnwell, an English baronet, visiting this country, directed his correspondents to send his mail to the general delivery at Baltimore. Reaching Baltimore, he went to the postoffice and inquired of the clerk at the general delivery window if there was any mail for Sir Reginald Barnwell. After looking over the letters in the box marked "B" the clerk told him there was none. He returned the next day, and still the next, but always received a negative response to his inquiry for letters. He thought this very strange, as he knew his correspondents must have written, and that his mail should have reached Baltimore even before he got here himself. All this he explained to the clerk, but the looked for letter was not given him.

Finally, one day after his usual inquiry had been made with the usual result, he said to the clerk, "If I am not too officious, might I ask to be allowed to look over these letters?" They were handed him, and as he ran over them he kept throwing some aside until he had a pile of twenty or twenty-five beside him. He then gave the package back to the clerk and commenced berating that official for his carelessness in forcing him to come to the office four or five days successively for mail that had been waiting there more than a week.

The clerk then asked to see the letters Sir Reginald had taken out. They were handed him, and on each he read "Sir Reginald Barnwell, Bart." "Why, sir," he said, "these are not your letters; they belong to Sir Reginald Barnwell, Bart, while you asked for the letters of Sir Reginald Barnwell." The baronet took his letters, not knowing whether to be angry or amused.—Baltimore Sun.

Use this in Case of Fire.

A wet silk handkerchief tied, without folding, over the face is a complete security against suffocation from smoke. It permits free breathing, and at the same time excludes the smoke from the lungs. It is a wise thing when traveling always to keep a silk handkerchief within easy reach for the emergency of fire.—New York Journal.

MT. OLIVET.

Quarterly Court convened Monday, and in the absence of Judge N. A. Tilton, Robert Buckner was elected by the bar to preside. The docket was disposed of Tuesday by noon.

The Republicans of Nicholas, Harrison and Robertson counties have nominated the following ticket: Senator, J. W. Mattox, of Harrison; Representative, F. M. Young, of this place.

Sheriff Sparks and Constable Kenton returned from Blue Licks Tuesday, where they were in search of Riley Macklin, now a fugitive and murderer, having committed cowardly and unprovoked murder at the Springs Sunday. He is supposed to be hiding somewhere in the hills that surround the Springs.

The Fourth was celebrated here in a manner highly creditable to our enterprising citizens. Our business houses were all decorated with flags and bunting, and the bells of all the churches and court house were simultaneously rung loose to signal another anniversary of the greatest event of American history.

A base ball picnic was given at E. Kenton's, and the gate receipts showed about eight hundred persons were present. Several clubs were on the ground, yet the principal thing that attracted so many people was the game played in the afternoon between the Mt. Olivet's and Cincinnati Browns. The game was called at 2 o'clock, and during its progress some of the spectators grew "highly enthused," and \$300 was bet on the result. The game was very exciting throughout, and its close the officials announced that C. Brown winners were one run ahead, although a dozen other tallies were kept and all showed by their counts, and corresponded exactly, that the two clubs "broke even." The Cincinnati boys were ball players in the fullest acceptation of the term, and well up in practice, while our boys were wholly without practice, this being the first game of the season for them. Had not every doubtful point that arose been conceded, as it was through courtesy, to the visiting club, the result would most assuredly have been different. A challenge from Olivet to play another game for \$200 a side was not accepted.

GERMANTOWN.

About the heaviest rain of the season fell in this region on Tuesday night.

Elijah Miller is quite sick with typhoid fever, at the home of Isaac Butcher.

Prof. F. L. Kelley, of the Flemingsburg Commercial College, is at home on a visit to his parents.

Mrs. P. B. Johnson, of Covington, has come to spend a while at the home of her youth and the house where she was born. She is accompanied by her two grandsons, Claude and Bob Johnson.

Milton C. Johnson, who has been elected Principal of the Maysville High School, was born and raised a few miles south of this place in Bracken County, and we who have known him well and intimately all his life take pleasure in endorsing all the good things said about him in the BULLETIN, and hope that your people will not reflect on their choice.

Just one year ago—July 8th—the remains of John W. Jones, one of the most promising and popular young men of this or any other community, were laid away in the cemetery at this place. To-day the hands of fond and loving parents are strewing his grave with fragrant flowers and tears of affection—a beautiful and appropriate tribute to the memory of one they loved so well.

SHEEP—Common to fair, \$3.00@3.75; good to choice, \$4.00@4.50; extra, \$5.00. Market slow and steady.

LAMBS—Common to fair, \$3.25@3.25; heavy shippers, \$5.50@6.25. Market dull and lower.

Cincinnati Tobacco Market.

(Tuesday.)
The breaks were very small, and remarkably so for this time of the year. The market did not exhibit any change of note from last week, there being little spirit shown in the bidding, which, though, may be due to the light sales and poor class of tobacco on sale. What little of good leaf or color grades were offered sold well. Medium and common grades received but little attention, and prices are, of course, low. Nothing fine was on sale.

Of the 173 hds. 50 sold from \$1 to \$3.90, 36 from \$4 to \$5.80, 37 from \$6.10 to \$7.75, 15 from \$8 to \$9.35, 25 from \$10 to \$13.75 and 10 from \$15 to \$18.

MAYSVILLE'S "ON THE LIST."

A Letter from the Postoffice Department In Regard to the Free Delivery Service.

Postmaster Davis has received the following, which explains itself:

POSTOFFICE DEPARTMENT,
SUPERINTENDENT FREE DELIVERY SYSTEM,
WASHINGTON, D. C., July 7, 1891.

Thomas A. Davis, Postmaster, Maysville, Ky.—Dear Sir: Yours of the 2d received, and I have to say that Maysville has been placed on the list of offices applying for the Free Delivery Service, and will be considered, with others, when the matter is reached. How soon that will be, however, I can not definitely inform you, very respectfully, S. A. WHITFIELD,

First Assistant Postmaster General.

As has been stated heretofore, the receipts of the office in the past fiscal year show that Maysville is entitled to the service under the general law. The step taken by the Department is a formal one and must be taken in every case.

There is no reason for the City Council delaying the work of numbering the houses. It will have to be done before the service can be placed in operation.

Maysville must keep up with the procession.

The Post says a few days ago a Baptist minister of Cincinnati solicited the close attention of his flock to what a brother minister was about to say on the subject of the devil, with the remark that his brother was "an entertaining speaker and full of his subject."

The Augusta packet M. P. Wells "ran through herself" at Ripley on her down trip last evening. Both cylinder heads of the larboard engine were blown out. She came up this morning on one engine, and is here receiving repairs. The work is being done by Ball, Mitchell & Co.

Mr. JOHN W. THOMPSON left this morning for High Bridge to take charge of the dining hall during the meeting which commences to-day. The company tried to secure the services of Mr. Thomas J. Nolin, but he is engaged as steward on the steamer W. N. Chancellor.

MR. GEORGE B. THOMAS, Secretary of the commercial club of Mobile, Ala., was before the Cincinnati Chamber of Commerce this week and has enlisted its influence to aid in securing a postal route between Mobile and some Central or South American port. It is said that Mr. Thomas has made about \$75,000 in his real estate deals this year.

HENRY BOWERS, colored, was fined \$7 yesterday in the Mayor's court for using abusive language to his wife, Lydia Bowers, the evening before. During the quarrel which the two had Lydia fired a pistol, but as there was no evidence that she shot at Henry she was allowed to plead guilty to the simple charge of shooting in the city limits, and was fined \$7.

MR. J. D. BRIDGES, a Maysvillian, has been engaged to take entire charge of the Craig Inn, one of the most magnificent hotels in Virginia, says the Portsmouth Blade.

It is located at Craig City, a new pleasure and health resort, in the most romantic spot among the mountains.

The hotel building and furniture cost \$150,000.

It has eighty-three guest chambers, and it is on a beautiful elevation in the midst of a natural park of eight acres, with lovely drives and leafy shades.

Near the hotel are four distinctly different medical springs within a space fifty feet square.

Over the top of the mountains pours a waterfall dropping five hundred feet.

The hotel itself is fitted with all modern appointments, such as electric call-bells, electric lights, steam elevators, &c.

An Ex-Mason Countian.

The Lexington Press has a very complimentary notice of Mr. D. F. Frazee, who moved from Minerva a few years ago. It says: "He anchored himself as a citizen of Fayette by the purchase of a blue grass farm, and has made a number of investments in real estate in Lexington, including the erection of a handsome residence on North Broadway, besides lending aid to other enterprises. He is a member of the carpet house of Scott, Skillman & Frazee, and is head of some building associations and other financial undertakings, besides having an interest in Middlesborough, where he is reported to have made a hundred and fifty thousand dollars. His latest venture is to take stock in the deal by which the Phoenix Hotel was purchased by a company, of which he will be the President. Considering how new a comer Mr. Frazee is, so new that but few outside of his business associates know him, his rise to influence has been quite remarkable, but no less deserved than remarkable. He is associated with the liveliest men in town, like Hon. M. C. Alford, Mr. J. H. Davidson, Mat Walton and others, and his latest venture will, beyond doubt, be as fortunate as all his other undertakings."

River News.

Another rise at Pittsburg. Barge water is expected.

Frank Green has resigned the position of chief engineer of the St. Lawrence and takes charge of the machinery at Shillito & Co.'s, Cincinnati.

The Big Sandy was placed in the Pomeroy trade and the Bonanza came up this morning in place of the St. Lawrence. The latter has laid up for an overhauling. The Bonanza will go through to Manchester every morning.

The steamer S. R. Vanmeter, plying between Portsmouth and Manchester, and owned by the Portsmouth Wheel Company, was tied up by the crew yesterday, who claim that they have not been paid anything since starting.

The steamer St. Lawrence recently carried at a single trip 161 hogsheads of tobacco and 600 bushels of fruit. In the year ending July 1st the St. Lawrence made 306 round trips from Cincinnati to Maysville, out of a possible 313.—New Richmond News.

A partial canvass of the different coal fields about Pittsburg indicates that there is about \$15,000,000 employed in the trade. The various coal mines, steam-boats, saw-mills and docks furnish employment to 12,000 men. Many of the largest and most influential coal men favor a scheme of consolidation, and are quite outspoken in their belief that it will be accomplished at an early day.

Railway News.

The C. and O.'s Fourth of July passenger traffic at Portsmouth this year was 150 per cent. greater than it was last year.

The L. and N.'s earnings for the fourth week of June were \$50,376 more than for the corresponding period in 1890. The increase for the year ending June 30 was \$341,534, as compared with the previous year.

The C. and O.'s earnings for the fourth week of June show an increase of \$32,537.38. The statement of the comparative earnings is as follows:

1891.....	\$218,012.99
1890.....	185,474.71
Increase.....	
	\$ 32,537.38
For the month of June the showing is:	
1891.....	\$668,601.73

Increase.....	
	\$ 63,561.06

The Enquirer says: "H. E. Huntington, formerly General Manager of the Kentucky Central, will on September 1 next go to San Francisco to become Assistant General Manager of the Southern Pacific. On the first of next January Mr. Huntington will be made General Manager of the Pacific system and Oregon lines of the Southern Pacific. It is said the salary paid the General Manager of the Southern Pacific is just about the size of the bundle the President of the United States draws annually from the United States Treasury."

FROM WASHINGTON.

A Few Items Gathered at the National Capital.

MILITARY ACADEMY REPORT.

Recommendations Made by the Board of Visitors—The Attorney General's Opinion of the Itata Affair—A Presidential Appointment—Other Items.

WASHINGTON, July 9.—The report of the board of visitors to the United States military academy has been submitted to the secretary of the navy. The board in its report recommends that the age of admission be fixed from 15 to 18, instead of 15 to 20, according to existing law.

The officers in charge of the academy, the report says, are able men and deserve the highest commendation; but the odious, brutalizing and un-American habit of hazing has not as yet entirely disappeared from the academy. The efforts that have been made for its extermination, it is gratifying to say, have been largely successful, but there yet lingers among the cadets a degree of class feeling that is extremely detrimental.

Retired Minister Killed.

WASHINGTON, July 9.—Rev. Dr. William A. Schubert, a retired Episcopalian minister, 60 years of age, was accidentally killed last night by a little boy named James Gant. The old gentleman, who was quite feeble, was crossing the street near his home and the boy was riding by on a bicycle. Just as he neared Dr. Schubert the bicycle struck a stone, and the boy was thrown with great force against Dr. Schubert, who fell heavily to the asphalt pavement. He was carried to his home and died shortly afterward. The boy was placed under arrest. Dr. Schubert came here from New Jersey a few years ago, and was widely known as a student at the time of his death.

The Robert and Minnie Affair.

WASHINGTON, July 9.—Attorney General Miller stated yesterday that the decision of Judge Ross in the Robert and Minnie case at San Diego, Cal., as he understands it from the newspaper, simply holds that the vessel cannot be confiscated. He had received no official notice of the decision. The case against the persons on board the Robert and Minnie would, he said, be proceeded with at once. The decision would not, he said, affect the government's course in the case of the Itata, and proceedings would be pushed right ahead.

The Itata's Fine.

WASHINGTON, July 9.—Secretary Foster has authorized the acceptance of the offer of the Itata \$500 fine for the violation of the navigation laws. This does not affect the charges of kidnapping an officer and violating the neutrality laws.

Will Send Them Back to Japan.

WASHINGTON, July 9.—The treasury department is informed that Mr. Woolf, of Chicago, who imported two Japanese to push Jinrikishas in the public park, had agreed to return the Japanese to Japan at his own expense.

Presidential Appointment.

WASHINGTON, July 9.—By direction of the president Second Lieutenant Eugene T. Wilson, of the First artillery, has been detailed as professor of military science and tactics at the Ohio State university at Columbus.

Consul Recognized.

WASHINGTON, July 9.—The president has recognized Jose Carlos Fernandez as vice consul of Portugal at New Orleans.

HAMLIN'S REMAINS.

They are Deposited in Their Final Resting Place at Bangor, Me.

BANGOR, July 9.—The city was in mourning yesterday. Business places generally displayed crape, and deeply draped portraits of the dead Ex-Vice President Hannibal Hamlin. The remains of Mr. Hamlin were placed in a casket at his home at 9 o'clock in the morning.

At 10:30 they were escorted by a guard of honor, composed of G. A. R. men, to the Unitarian church, where they lay in state and were viewed by a constant stream of people passing through the church.

The funeral services were held at 3:30 in the afternoon when a number of prominent men from Portland and Poland Springs were present.

Traveling Salesman Missing.

MERIDEN, Conn., July 9.—George H. Tuttle, traveling salesman for Warner & Company, of Hartford, clothiers, has been missing from his home in this city since last Thursday. He ran two clothing clubs here and had taken in about three thousand dollars. He had about fifteen hundred dollars of this in the bank but drew it out sometime ago. It is said that he lost heavily playing poker. His wife and child are here without means of support. The members of the clothing clubs who have paid in their assessments and not drawn, are the losers.

Life Prisoner Pardoned.

AUBURN, N. Y., July 9.—James C. King, a life convict, was released from Auburn prison yesterday on a pardon from Governor Hill. King is a New Yorker, and has served seventeen years in prison for shooting a lawyer named O'Neill, who was engaged in trying to obtain a divorce for Mrs. King. King is 52 years of age.

Two Fishermen Drowned.

SANDUSKY, O., July 9.—Henry Keck, saloon keeper, and Joseph Brounwick, of Cleveland, went out from here Monday in a small boat to fish. They failed to return, and search instituted for them resulted in finding the bodies of both men on the shore of the bay east of town.

COLUMBUS, Ind., July 9.—J. C. Davis, of Vienna, O., arrived yesterday, accompanied by his daughter, aged eleven years. She was bitten by a mad dog last Saturday evening. The mad stone, owned by William Phipps, of this city, was applied, and it is still adhering rigidly to the wound.

AN INDIAN EXECUTION.

Unbound, He Sits Quiet and Is Shot Through the Heart.
KANSAS CITY, July 9.—A special to the Journal from Tahlequah, I. T., says:

At Waheka, the capital of the Seminole reservation, Umest, a full-blooded Seminole, was executed. Just a month ago Umest engaged in a quarrel with a fellow Indian, and after knocking him senseless with a hoe, literally chopped his body to pieces with it. He was tried by the Seminole council, convicted, and sentenced to death. The penalty was inflicted on the council grounds. Umest was led to a low flat rock, and a bandage was tied over his eyes. He was not bound in any way, but sat erect, with his hands resting in his lap, and as much unconcerned as if his photograph was about to be taken. Two of the braves were selected by lot as the executioners. They were given loaded rifles, and at the word each sent a bullet into the condemned man's heart. The only evidence that Umest had been shot was in the painful raising of the shoulders. The executioners ran quickly to him and laid him at full length on the ground where he expired in two minutes. Umest's body was buried by the council on the edge of the council grounds.

GREAT BRITAIN WILL PAY DAMAGES

To Her Subjects for Losses Sustained by the Closed Season.

VICTORIA, B. C., July 9.—In reply to their telegram on May 30, protesting against the closing of Behring sea this season, the board of trade received a reply from the colonial office in which the following occurs:

"As the total cessation of sealing in Behring sea will greatly enhance the value of produce of the coast fishery, her majesty's government does not anticipate that the British sealers will suffer to any great extent by their exclusion from Behring sea."

"The government is prepared, however, to consider cases which establish a direct loss sustained by any British subject through the enforcement of the prohibition of sealing in Behring sea."

Mad Dog Excitement.

BLOOMINGTON, Ind., July 9.—There is a mad dog excitement in Folk township. Yesterday a large, strange dog made its appearance on the farm of John Carson and attacked four hounds which Mr. Carson keeps for fox-hunting, biting each one of them. It then attacked two miles, biting each of them in the nose. The dog also bit a cow and a dog which it met in the road. Several neighbors joined in pursuit, and the animal was shot as it was entering the home of Thomas Lemon. All the injured stock has been confined.

Narrow Escape of a Passenger Train.

SPRINGFIELD, Mass., July 9.—A passenger train on the Holyoke and Westfield railroad, which left Westfield at 7:50 o'clock yesterday morning, had a very narrow escape from being wrecked near the South street crossing at Holyoke. A switch had been left open on a side track and the train was turned into it, the engine dashing into the rear of a line of freight cars standing on the siding. The engine was badly damaged, while the rear of the freight train was overturned and demolished. The fireman and baggagemaster were injured, the latter seriously. The passengers, beyond a severe shaking up, escaped injury.

Deed of a Drunkard.

NEW YORK, July 9.—About noon yesterday Ferdinand Reichert fired a pistol at Annie Douglass, wounding her in the neck and wrist, and turning the pistol upon himself, lodging three bullets in his own head. Both were taken to the hospital. Reichert's wounds are fatal, but Annie may recover. The shooting occurred in Schuman's restaurant, 20 Division street, where both were employed. Reichert was drunk and became angered at the girl because she sent him on an errand.

A Young Embezzler.

KANSAS CITY, July 9.—Richard Breeze, confidential clerk of the law firm of J. McD. Trimble and Charles A. Braley, is a fugitive from justice, having embezzled from the firm's safe bank stock valued at \$1,000 and other valuable papers. Breeze is but 18 years of age, but has been connected with the firm for sometime, and both members of the firm had perfect confidence in his honesty.

Closed by the Sheriff.

MEMPHIS, July 9.—Bejack & Company, dealers in dry goods, were closed by the sheriff yesterday on attachments aggregating \$40,000. The principal creditors are St. Louis, Cincinnati and Memphis houses.

An Excellent Wheat Yield.

ANDERSON, Ind., July 9.—The first wheat of 1891 crop was threshed in this county yesterday. A field of ten acres averaged twenty-eight bushels per acre, and the berry is pronounced excellent, being hard, flinty and full. Madison county contains 450 square miles, and the 1891 wheat crop is estimated at 200,000 bushels.

Gibson's Indictments.

CHICAGO, July 9.—Judge Collins, after a conference with the attorneys for both sides, yesterday postponed final consideration of the indictments against Secretary Gibson, of the whisky trust, until the August term.

Convent Burned.

ST. HILARE, Que., July 9.—The convent of La Providence, commonly known as that of the Sisters' Gadbois, situated on the Richelieu river below Beloit, was totally destroyed by fire Wednesday.

Train Robber Guilty.

VISSILA, Cal., July 9.—Crayton Dalton, one of the men concerned in the Alili train robbery last year, was yesterday adjudged guilty by a jury after twenty-one hours' deliberation.

River Gives Up Its Dead.

CINCINNATI, July 9.—The last body missing of the fatal skiff ride near Riverside, that of Joe Zins, was found in the river at Anderson's Ferry about noon Wednesday.
